

SWITZERLAND¹Approved Exporters

The authorisation number of an approved exporter is composed of a one to five-digit number. Authorisation numbers with one or two digits are usually indicated on origin declarations preceded by zero(s), sometimes followed by the year of issue (for instance: 11, 011, 0011, 00011 or 11/2018, 011/2018, 0011/2018 or 00011/2018).

A list of approved exporters in Switzerland is available on the internet. The list is updated on a regular basis and can be found on the following web-address:

ICELAND

Approved Exporters

The identification number for approved exporters authorised by Iceland is composed as follows:

Four-digit number, dash, IS, followed by the two last digits of the year of the authorisation:

Example: 0023-IS10

A list of the approved exporters in Iceland is available on the internet. The list is updated on a regular basis and can be found on the following web-address:

Specimen impression of the stamp used for the issue of movement certificates EUR.1 and EUR-MED

Above you find specimen impressions of stamps used by the Norwegian customs authority when endorsing movement certificates EUR.1 and EUR-MED for Norwegian exporters. It should be added that all customs offices in Norway are authorised to stamp (endorse) movement certificates EUR.1 and EUR-MED upon exportation of originating products to a partner country. The customs stamps to be used have the same layout throughout the country; however, the code-number varies, identifying the different customs offices. Thus, the number "Oslo no. 12" appearing in the stamp is just an example.

Electronic EUR.1

Norwegian Customs introduced electronic EUR.1 on 2 April 2020. Please see Annex IV for a specimen of the electronic EUR.1.
